#### **DETAILED ACTION**

#### Election/Restrictions

- 1. This application contains claims directed to the following patentably distinct species of the claimed invention: Species 1 as viewed in Figures 1-2 and Species 2 as viewed in Figures 3-
- 4. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, several claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 3644

During a telephone conversation with Priscilla Ferguson on 4 June 2004 a provisional election was made without traverse to prosecute the invention of Species 2, claims 1, 2-4, 6-7, 9-10, 12-13, 15-16, 18-29, 31-33, 35-36, 38-40, 42-43, 45-48, 50-58. Affirmation of this election must be made by applicant in replying to this Office Action. Claims 3, 5, 8, 11, 14, 17, 30, 34, 37, 41, 44, 49 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

## **Drawings**

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, where the "hook shank is curved from said bend at least to said top weight taper" (claims 32, 35, 38, 42 and 46) must be shown or the feature canceled from the claim. No new matter should be entered.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted

by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

## Claim Objections

4. Claims 32, 35, 38, 42 and 46 are objected to because of the following informalities: The claimed subject matter "said hook shank is curved from said bend at least to said top weight taper". Appropriate correction is required.

## Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 6. Claims 1, 2-4, 6-7, 9-10, 12-13, 15-16, 18-29, 31, 33, 36, 39-40, 43, 45, 47-48, 50-58 are rejected under 35 U.S.C. 102(b) as being anticipated by Reed (US 5,901,494).

Reed discloses a weighted fishhook comprising a hook shank portion S, a bend B in said shank S, a hook eye E in an opposite end from said bend B, and a double tapered weight 14 disposed on said shank S. The hook shank S is curved from said bend B to at least a lower end of said weight 4, and further terminates in a reverse bend having a hook tip C and spaced barb element. The weight 14 is spaced from said hook eye E with an offset bend disposed there between.

7. Claims 1, 2-4, 6-7, 9-10, 12-13, 15-16, 18-29, 31-33, 35-36, 38-40, 42-43, 45-48, 50-58 are rejected under 35 U.S.C. 102(b) as being anticipated by McClellan (US 5,220,743).

McClellan discloses a weighted fishhook comprising a hook shank 1 having a hook eye 4 in one end a bend 5 in the middle and a hook tip 7 with spaced barb terminated in a reverse bend a the end opposite the hook eye 4. A double-tapered weight 11 is centrally located on said hook shank 1, and said shank is curved substantially from said bend 5 to at least the top end 13 of said weight 11 (Figure 1). The shank 1 further comprises an offset bend 20 (Figure 4) between said weight 11 and said hook eye 4.

#### Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan C. Alimenti whose telephone number is 703-306-0360. The examiner can normally be reached on Monday-Friday, 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael J. Carone can be reached on 703-306-4198. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
